

CDLA.jobs

One-page summary for recruiting directors, hiring managers, and fleet owners.

Carrier Brief

What we are

CDLA.jobs is a CDL-A driver matching service, not a job board. You don't post jobs on our platform. We take an API feed of the openings already published on your careers page, AI-prescreen drivers against your hiring criteria, and deliver the matches that clear your filters directly into your ATS - Tenstreet by default, integration configured by us.

The product is the prescreening. Drivers who don't match your stated criteria - location, experience, equipment, MVR disclosures, criminal history, endorsements, schedule preference - never reach your inbox. Drivers who do match are people the driver themselves selected to share their prequalification with.

**Not a panel.
Not a lead list.
Not resold to ten
carriers.**

How it works

- 1 Your jobs feed in.** Current careers-page openings become driver matches.
- 2 Drivers complete one intake.** Experience, equipment, endorsements, regions, schedule, and stage-2 safety answers.
- 3 AI matches against your criteria.** Only drivers who clear your filters surface for your roles.
- 4 The driver picks you.** Consent is per-carrier; they release their prequalification to you specifically.
- 5 Prequalification lands in your ATS.** Your team uses the Tenstreet workflow they already know.
- 6 You complete DOT 391, FCRA background, MVR, and hiring decision.** We do not touch FCRA-regulated steps.

Pricing

Tier 2	Standard carrier visibility	Free	Included in driver match flow when openings fit driver criteria.
Tier 1	Featured carrier placement	\$2,500 flat	Priority placement designed to replace job-board spend with consent-based driver flow.

What makes this different

- **Driver consent is per carrier.** The driver releases their prequalification to you specifically.
- **Pricing replaces job-board spend.** You are not paying for boosted posts, stale clicks, or a generic resume pile.
- **Prescreening happens before your inbox.** Location, experience, equipment, disclosures, endorsements, and schedule preference are filtered first.

What we do not do

- **We do not** act as a traditional job board or resell the same lead to every carrier.
- **We do not** guarantee hires or replace your recruiting team.
- **We do not** run DOT 391, FCRA background, MVR, or final employment decisions.

Onboarding

Confirm carrier details -> hiring lanes and driver requirements -> placement tier -> recruiter contact -> approve carrier copy -> activate in driver matching flow -> receive consent-based driver prequalifications.

Fleet-size buckets: 1-10 | 11-50 | 51-250 | 250+
